

ACCUSCORE

We used to manage our affiliate marketing program on our own with minimal results using CJ. Once we found eBrandz we saw a drastic turn around in our affiliates program. They introduced us to ShareaSale, and we went from under 100 affiliates to 1000's of affiliates with eBrandz contacting 50 new affiliates every week.

They send us weekly updates with analytics reports tailored to our needs. I have been very impressed with their prompt response and actions. When we needed to pull 100 ads and replace them with brand new creative, they were on top it, and got in contact with all of our affiliates to inform them of the change.

If you are ready to put your affiliate program on auto pilot and reap the rewards, I highly recommend eBrandz.

Sincerely,
