Managing and marketing our products through affiliates has been a very challenging experience. We decided to use eBrandz's Affiliate team to assist us with this process, and the revenue we are generating through our Affiliate program is more than we were able to achieve.

Their customer support and attention detail is superior to any other affiliate marketing company we have used. Their "No Hidden" policy helps us to keep a track of our rising sales graph and build confidence that we are earning quality leads and sales. I would highly recommend eBrandz to anyone who is looking to increase online sales.
