Client: The mission statement of New York based Storobin & Associates, P.C. is to make sure that common man can have the services of a Wall Street lawyer, without the exorbitant prices charged by white-shoe law firms to cover their expense accounts. David Storobin, is the principal attorney of Storobin & Associates, P.C.

Challenge: Although, the website had good amount of content, the Title Tags and other HTML tags were not at all SEO friendly. Also Storobin’s competitors were well established websites. Another problem was that Storobin.com website did not have any inbound links.

Solution: eBrandz team started off with keyword research after consulting with client. Once the keywords were finalized the next step was including these keywords in the HTML code of the website. After that, eBrandz team submitted the website to local search engines and directories. Also, eBrandz started researching other law related websites and asked them to link to Storobin.com

Results: David started seeing results in two months. Currently he has seen 150% increase in website traffic and is quite happy with the results eBrandz was able to achieve.
