Teach English as a Second Language. Travel & Teach Abroad
Park English Recruitment Agency Inc.

Date: August 9, 2007

Park English, based in Seoul, South Korea, is a U.S. incorporated, bilingual and bicultural Gov't Licensed Employment Agency, providing well qualified, competent and experienced teachers to teach English as Second Language in prospective academic institutions in South Korea.

To promote our business further into the online world, I have spent over a month on research for finding the best Search Engine Optimization Company, who could also manage our PPC campaign.

However, after spending a thoughtful time answering countless questions I have narrowed down to eBrandz for their fair price and great reputation.

“It has been a real pleasure working with the professional staff of eBrandz, as they have always surpassed my expectations with their prompt service and continuous reports. With your relentless efforts and eagerness to promote our business while having concern for our budget, you have made our company powerful.

Thanks to eBrandz, my company is successful and I am able to work from anywhere in the world while traveling.

My company and my life are different thanks to you.”

Sincerely,
Cessilia Bosung Park
