Date: October 12, 2006

Seasons India is a fashion garment house in Santa Cruz, Mumbai. Our website is a leading portal catering to women since 1998. In early 2002 realized that we had a great website with extremely good content related to women and fashion. However we did not have enough visitors to our websites.

We did some research and came to know about SEO. We did a search for an SEO company and that is how we came across eBrandz. We had few initials meetings with them and we were highly impressed by their domain knowledge about search engines. They even pointed out problems with our existing site due to which we were not getting crawled by search engines. We did a background check and were satisfied with their credentials.

They started working with us and over the years they have increased our website traffic and sales incredibly (We had 30,000 unique visitors per month and currently we have 250,000 unique visitors per month). This kind of business and sales was unimaginable for us.

We have had a very positive and fruitful experience working with eBrandz. The Quality of their efforts into our project was and is simply amazing. Hence we would definitely recommend eBrandz to other companies who are in need of Search Engine Marketing services.
