

Dubai Vacation Villas

Date: September 11, 2006

Dubai Holiday Rentals is a property management company specializing in short term holiday lets in Dubai, due to time constraints we found that we simply did not have the time or knowledge to handle our own SEO. We found eBrandz by a Google search, they were chosen initially as they ranked high in the search and their response and attitude were first class.

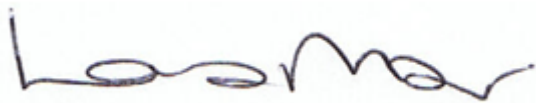

We selected eBrandz as they were fastest to respond to our questions and enquiries, customer Service is the most important thing any company can offer.

We did not have any concerns signing up with eBrandz.

eBrandz team was always prompt in replying to our questions and followed the time schedule given to us. One important thing we noticed was that their answers were always factual and not misleading in any way.

Soon we started seeing improvements in all search engines apart from Google, but we understand that it takes time with Google. We have already seen a steady increase in business over the last one year.

We would definitely recommend eBrandz to other companies.
