

Kumarakom Lake Resort

Date: August 25, 2006

We are Kumarakom Lake Resort, a 5 star deluxe luxury heritage resort situated on the banks of the Lake Vembanad in Kerala, India. Acclaimed to be one of the top 5 resorts in India, we have been keen on establishing our position through the Internet and are aware that SEO goes a long way to reach the concerned surfer.

We had been on the lookout for an SEO group for a while and had gone through several proposals from several companies but none had presented a clear and focused proposal as eBrandz. Their suggestions matched our aims and requirements. The satisfaction in the testimonials of their clientele and the convinced us of the company credentials and gave us confidence.

We were a bit apprehensive as to whether the company would deliver as promised but within months the results began to show.

Working with eBrandz team is a good experience as the team has been extremely responsive and immediate with their reports, responses etc. After the initial 3 - 4 months the results began to show. Enquiries via the website have been slowly on an increase and the visibility of Kumarakom Lake Resort has definitely increased with SEO.

We would definitely recommend eBrandz to other companies looking out for a good and professional SEO company.

Warm regards,
Asa Abraham
