

## Old Glory Freight

Providing freight shipping services to both residential and commercial customers....

Date: September 5, 2007

With the ever increasing competition and complexity of search engine rankings we realized we needed help in order to stay profitable. After many hours of researching companies and talking to representatives we decided to give eBrandz a try. From the very first day we found their staff to be very friendly and knowledgeable, we never felt like our project was on the back burner. We were always kept up to date with their work through emails and phone calls. Best of all, after a few months we starting seeing some really amazing results. Our organic listings had dramatically improved on all the major search engines! Our website was nowhere to be found and now we are on the first page in some very competitive search terms.

I would recommend eBrandz to anyone who needs traffic from the web, these guys really know what they're doing.

Elizabeth Engelke  
Owner,  
Old Glory Freight.
